## Integrative Approaches to Managing Side Effects of Common Cancer Therapies:

### *Neuropathy & Fatigue*

Wednesday, February 10, 2010

Richard Jones Hall, Room 4340, OHSU

12:00 - 1:00 pm

Complimentary healthy snacks provided

*Please join us to listen to four experts  
representing allopathic, naturopathic, chiropractic and  
traditional chinese medicine discuss their treatment  
approaches to managing side effects of common cancer  
therapies.*

*The side effects in focus are neuropathy and fatigue, both  
of which are symptoms that can greatly benefit from a  
variety of systems of medicine.*

*Advancing integrative health through collaborative  
education, research, clinical care and advocacy*
